Sedimentary Geology, Volume 58, 1988

Research Papers

Modern-period muddy sediments in the Severn Estuary (southwestern U.K.): a pollutant-based model for dating and correlation
J.R.L. Allen (Reading, Great Britain) 1

Environmental aspects of Middle Ordovician limestones in the central Appalachians
B. Carter (Americus, Ga., U.S.A.), P. Miller (Olean, N.Y., U.S.A.) and R. Smosna (Morgantown, W.V., U.S.A.) 23

S-isotope studies of shallow water, laminated gypsum and associated evaporites, Upper Permian, East Greenland
L. Stemmerik (Copenhagen, Denmark), J.E. Rouse and B. Spiro (London, England). 37

Large floating clasts in turbidites: a mechanism for their emplacement
G. Postma (Norwich, U.K.), W. Nemec (Bergen, Norway) and K.L. Kleinspehn (Minneapolis, Minn., U.S.A) 47

Comparison of turbidite facies associations in modern passive-margin Mississippi fan with ancient active-margin fans
G. Shanmugam, R.J. Moiola, J.G. McPherson (Dallas, Texas, U.S.A) and S. O'Connell (College Station, Texas, U.S.A) 63

Sedimentation patterns of the Proterozoic Delhi Supergroup, northeastern Rajasthan, India, and their tectonic implications
S.P. Singh (Patna, India) 79

Book Reviews

Sedimentary Environments and Facies edited by H.G. Reading—K.A.W. Crook 95

Reef Diagenesis edited by J.H. Schroeder and B.H. Purser—A. Guilcher 95

Sedimentation in the African Rifts edited by L.E. Frostick, R.W. Renaut, I. Reid and J.J. Tiercelin—F. Gasse 96

Marine Mineral Exploration edited by H. Kunzendorf—R. Heki.:an 97

The Nordic Seas edited by B.G. Hurdle—J. Thiede 98

Special Issue: Aspects of Proterozoic Sedimentary Geology (edited by M.J. Jackson)

Preface and Review—Aspects of Proterozoic Sedimentary Geology 101

Quartz arenites: review and interpretation
F.W. Chandler (Ottawa, Ont., Canada) 105

Proterozoic plate tectonics, glaciation and iron-formations
G.M. Young (London, Ont., Canada) 127

Sedimentology and geochemistry of a mid-Proterozoic lacustrine unit from northern Australia
T.H. Donnelly and M.J. Jackson (Canberra, A.C.T., Australia) 145

Setting and sedimentary facies of late Proterozoic alkali lake (playa) deposits in the southern Damara Belt of Namibia
H. Porada and H.J. Behr (Göttingen, F.R.G.) 171

The Precambrian turbidite–tempestite transition as displayed by the amphibolite-facies Puolankajärvi Formation, Finland
K. Laajoki and E. Korkiakoski (Oulu, Finland) 195

Proterozoic canyons of the Flinders Ranges (South Australia): submarine canyons or drowned river valleys?
K.-H. Eickhoff, C.C. von der Borch and A.E. Grady (Bedford Park, S.A., Australia) 217

0037-0738/88/$03.50 © 1988 Elsevier Science Publishers B.V.

Storm-dominated mixed carbonate/siliciclastic shelf sequence displaying cycles of hummocky cross-stratification, late Proterozoic Wonoka Formation, South Australia
P.W. Haines (Adelaide, S.A., Australia) 237
Is cratonic sedimentation consistent with available models? An example from the Upper Proterozoic of the West African craton
J. Bertrand-Sarfati and A. Moussine-Pouchkine (Montpellier, France) 255
Early Proterozoic stream deposits: braided or meandering—evidence from central Australia
I.P. Sweet (Canberra, A.C.T., Australia) 277
